Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Application

Receipt of the Information Disclosure Statement (IDS), the Specification, Claims and Abstract, the Corrected Filing Receipt and the Declaration with Power of Attorney, all filed 04/30/01 is acknowledged.

Claims 1-17 are pending. Claims 1-17 are subject to an Election/Restriction requirement.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a granular delivery system comprising a flavor or fragrance ingredient, classified in class 424, subclass 400.
 - II. Claim 16, drawn to the use of a delivery system in a product (*chewing gum, soft chewy confection, ice-cream, biscuit, pharmaceutical preparation, toothpaste*), classified in class 424, subclass 49.
 - III. Claim 17, drawn to the use of a delivery system in a product (*detergent, fabric softener, soap, shower/bath gel, shampoo, hair-care product, body lotion, deodorant, home care cleaning product*), classified in class 424, subclass 401.
-

Art Unit: 1615

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and II & III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product can be used in the area of foods and dentrifices (i.e., chewing gum, ice-cream, biscuit, etc.) and can also be used in the area of cosmetic applications (i.e., detergent, soap, shower/bath gel, shampoo, lotion). Hence, restriction between the groups is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Groups III, and I and so forth restriction for examination purposes as indicated is proper.

Art Unit: 1615

This application contains claims directed to the following patentably distinct species of the claimed invention:

Note: If applicant chooses to elect Group II, then the following Election of Species is required:

Election of Form

- (a) chewing gum
- (b) soft chewy confection
- (c) ice-cream
- (d) biscuit
- (e) pharmaceutical preparation
- (f) toothpaste

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1615

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

This application contains claims directed to the following patentably distinct species of the claimed invention:

Note: If applicant chooses to elect Group III, then the following Election of Species is required:

Election of Form

- (a) detergent, fabric softener, soap, shower or bath gel, shampoo
- (b) other hair-care product
- (c) body lotion
- (d) deodorant
- (e) home care cleaning product

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.
